- Complete IT one-year library

BUOB Computer Training™ Virtual Classroom for MCTS: Microsoft SQL Server 2008

Business Intelligence Development and Maintenance (Exam 70-448)

BUOB Computer Training's **MCTS 70-448 Training Course TS: Microsoft SQL Server 2008, Business Intelligence Implementation and Maintenance** teaches students how to implement SQL Server Implementation Services (SSIS), SQL Server Analysis Services (SSAS) and Sql Server Reporting Services (SSRS) solutions as well as configure, maintain and deploy SSIS, SSAS and SSRS solutions.

When you pass Exam 70-448 TS: Business Intelligence Implementation and Maintenance you complete the requirements for the following certification:

- Microsoft Certified Technology Specialist (MCTS): SQL Server 2008, Business Intelligence Development and Maintenance

Microsoft Exam 70-448 also counts as credit toward the following certifications:

- MCITP: Business Intelligence Developer 2008

BUOB Computer Training offers you the most effective way to earn your Microsoft Certified Technology Specialist (MCTS). IT Professionals holding the Microsoft Certified Technology Specialist: SQL Server 2008, Business Intelligence Development and Maintenance certification have demonstrated the knowledge and skills necessary to work with the full suite of BI technologies in SQL Server 2008, including Reporting Services, Analysis Services, and Integration Services.

As a Microsoft Certified Partner, BUOB Computer Training follows the approved Microsoft course curriculum, ensuring you receive the training and knowledge needed to succeed. BUOB Computer Training is so certain this course meets and exceeds the exam objectives,

we guarantee you will pass your exam!

**If you fail the same exam covered by BUOB Computer Training's training on two (2) attempts within 180 days of purchase, a refund will be issued for the corresponding training package.*

COURSE OUTLINE

Instructor Introduction

- Course Overview

Module 1: Designing a BI Solution

- Module Overview
- Data Management
- Obtaining Data
- BI Clients
- Managing Development and Upgrades
- Module Review

Module 2: Designing Integration Services

- Module Overview
- Control Flow
- Data Flow
- Transactions
- Designing Custom Code
- Package Design
- Server Options
- Module Review

Module 3: Designing Analysis Services

- Module Overview
- Cube Creation
- Designing Dimensions and Measures
- Enhancing Cubes
- Performance
- Cube Maintenance
- Module Review

Module 4: Designing Data Mining Models

- Module Overview
- Model Design
- Accessing Data and Setting Up a Mining Model
- Module Review

Module 5: Designing report Services

- Module Overview
- Designing Reports
- Designing a Report and Setting Up a Template
- Designing Servers
- Configuring Server Based Reports
- Configuring Security
- Implementing Report Builder
- Module Review
- Course Review
- Exam Preparation
